

Truck Schedule Effective 10/2/2007

This truck schedule can be used as a quick reference guide. Check the web site flight schedule or flight availability tool to determine if the desired truck is operating and whether the appropriate equipment type is available for your shipment. For further information regarding our truck schedules, please contact United Cargo. All truck schedules and equipment types are subject to change without notice.

Truck numbers are identified on the website with a "T" or "9".

Web site bookings using truck segments with an equipment type that is inappropriate for your shipment type may be refused for transport by truck.

Perishable shipments are accepted on refrigerated trucks only. Refrigerated trucks currently operate on the IAD/ORF and ORF/IAD lanes only.

Hazardous Materials are not allowed on trucks to or from BOS - Logan International Airport.

Warm-blooded animals are not allowed on trucks.
