## Customer Acknowledgement Form

The safety of your pet is the highest priority for United Airlines, Inc. (“United”) and our PetSafe® program. Therefore, in addition to obtaining a valid health certificate, we require that you are familiar with the risks associated with pet air travel and confirm that you are willing to accept those risks, including those specific to certain breeds. We also require your confirmation that you have taken the necessary steps to prepare your pet for a safe travel experience.

Please review this form carefully and enter your contact information. Alternatively, you may designate another person as the point of contact. The completed and signed form must be provided to United no less than five days prior to travel, and two copies of the form must be presented when your pet is dropped off for travel.

When your pet travels, they will be exposed to new environments and will be restricted to a crate for an extended period of time. If your animal reacts negatively to stress or anxiety and/or is not acclimated to extended periods of confinement, we strongly recommend you delay your decision to transport your pet until they are better prepared for travel. United may, in its sole discretion, prohibit the transport of your pet on United if they exhibit any behavior that shows they are not acclimated to travel in a crate.

To supplement the information you received at the time of booking, here are some, but not all, of the factors that can significantly raise the risk to your pet during travel.
